Friends,

Please act today! This is very important! Pro-abortion opponents to this legislation (Planned Parenthood, NARAL, etc.) are working overtime to defeat possibly the most important pro-life bill in Missouri in a generation!

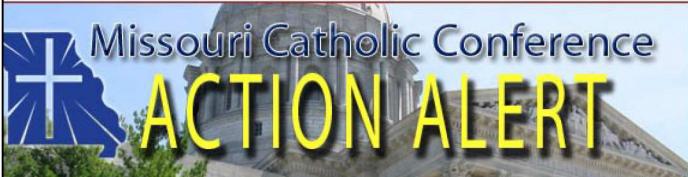

Sam

Subject: Action Alert - Urge Passage of HCS SB 5

**Contact Your Senator and Ask for His/Her Support**

Missouri General Assembly has been working overtime this summer in response to Governor Greitens' call to pass pro-life legislation addressing the St. Louis "abortion sanctuary" ordinance, and common sense safety regulations for abortion facilities.

June 15th, the Missouri Senate passed [SB 5](#), which included language preempting St. Louis ordinance making St. Louis an "abortion on sanctuary," and requiring annual abortion facility inspections. Last week, the Missouri House added provisions to make SB 5 even stronger.

Contact your Senator and urge passage HCS SB 5. Read this alert and contact your Senator immediately.

Background

February, the St. Louis Board of Aldermen passed an ordinance purporting to make St. Louis an "abortion on sanctuary," by creating a new protected class of people based on their reproductive healthcare decisions, including their decision to have an abortion. The upshot of the ordinance is that religious employers that refuse to hire people that publicly support abortion and landlords that refuse to rent space to abortion providers could be guilty of discrimination and face fines and even jail time.

SB 5, as passed by the Missouri Senate on June 15th, would amend Missouri law to preempt this horrible St. Louis ordinance, and prevent other Missouri cities from passing a similar ordinance. SB 5 also requires all Missouri abortion clinics to be inspected on an annual basis to insure they are following Missouri safety regulations and are not operating in an unsanitary manner. It also gives the Missouri Attorney

heral authority to enforce Missouri abortion laws, rather than just local prosecutors
o might not act for political reasons.

t week, the Missouri House amended SB 5 to include add t onal pro-life provisions.
se include a requirement that abortion clin cs have plans in place to protect patients
he event of complications, a requirement that all fetal tissue from abortions is sent
patholog cal examinat on, and a provision making t illegal for abort on clinics to tell
t responders not to follow routine protocol when responding to an emergency at an
rtion clinic.

CONTACT YOUR STATE SENATOR IMMIDIATELY!

Subject: As I mentioned, I've got three pro-life interns coming up to Jefferson City on Tuesday, July 11

Todd,

As I mentioned, I've got three pro-life interns coming up to Jefferson City on Tuesday, July 11. They are interning this summer on Tuesdays and Thursdays at the Archdiocese of St. Louis [Respect Life Apostolate](#) (RLA). RLA executive director [Karen Nolkemper](#) will also be joining them.

This is something the RLA office does every year, and I help set things up for them each year, along with someone at the Missouri Catholic Conference.

This year, the three interns are all female – two in college and one a senior at Kirkwood High School

Right now, they will be meeting with Rep. Hannah Kelly sometime around 10:00 AM or so, and also sometime that morning/early afternoon with Tom Estes in Sen. Andrew Koenig's office. The interns will have read the special session pro-life bills, summaries, talking points, etc., because I told them I want them to be familiar with the pending legislation – since that will be the framework from which discussion will flow.

It would be great if you or someone in the governor's office could give a half hour to 45 minutes or so with them in the late morning/early afternoon. Anything you want to discuss is fine.

We will eat lunch at Arris' Pizza after we are done at the Capitol, then head over to the Vitae Foundation offices, then Central Dairy, and after that, they will all drive back to St. Louis.

Thanks!

Sam

Senator (name) Street City, MO Zip

Dear Senator (name),

I want to thank you and your colleagues for your action earlier this summer in passing SB 5. As you know, the Missouri House of Representatives has amended SB 5 with even stronger provisions. You are now presented with an historic opportunity to pass one of the strongest pieces of legislation in decades relating to these areas of concern. Here are some highlights of the main protective rights of conscience by overturning the St. Louis "abortion sanctuary" ordinance and prohibits other municipalities from passing similar ordinances that violate rights of conscience:

a Prohibits forcing religious schools to hire abortion advocates as teachers and staff; o Prohibits forcing landlords to rent to abortion clinics; o Prohibits requiring abortion coverage centers;

Only physicians licensed to practice in the state of Missouri may perform or induce abortions in an abortion facility located in Missouri (Section 197.215):

Retains current 72 hour reflection period prior to an abortion, but adds requirement that abortion physician meet in person with the woman considering an abortion 72 hours prior to performing medical risks (Section 188.027);

Requires an abortion doctor seeking to administer medical abortions to obtain approval of a "complication plan" from the Missouri Department of Health for steps that will be taken when (over)

The Most Reverend Robert J. Carlson - Archbishop of St. Louis, General Chairman The Most Reverend John R. Gaydos - Bishop of Jefferson City, Executive Chairman The Most Reverend James V

a

a

a

Requires abortion facilities to maintain written protocols for managing a medical emergency and transferring patients to a hospital with a reasonable distance from the facility for further treatment. Creates a Class A misdemeanor if abortion staff knowingly orders or requests medical emergency responders to deviate from their standard procedures for responding to emergencies (Section 188.047); Strengthens current law requirements regarding how fetal tissue from abortion is to be submitted by an abortion facility to a board eligible pathologist for examination. Also strengthens 188.047);

Requires abortion facilities to develop written policies protecting employees who disclose information about possible health and safety violations of state or federal law (Section 188.1)

Requires Missouri Department of Health to make annual, on-site and unannounced inspections of abortion facilities (Section 197.230);

Grants the Missouri Attorney General equal authority, along with local prosecutors, to enforce Missouri abortion laws (Section 188.075).

As you can see, House amended SB 5 includes numerous provisions that will protect women and unborn children and promote the rights of conscience of all Missourians. No one should be forced to have an abortion.

Know that you are in my prayers as you work to seek passage of House amended SB 5

Sincerely,

Mike Hoey Executive Director
